

■# Changelog Addendum - 2026-03-09

Generated: 2026-03-09 12:40:10 +02:00

Branch: Tony-dev

Scope

This addendum captures all local repository changes included for the current push request.

- Tracked files changed (vs HEAD): 30
- Untracked files: 3
- Aggregate diff stats: 30 files changed, 7090 insertions(+), 568 deletions(-)

Key Functional Updates

Reception - Registration and Medical Aid

- Made the Register New Patient form scrollable for long capture workflows.
- Enforced medical aid capture card visibility/enablement per registration-type flow.
- Added medical aid provider and cover/plan dropdowns.
- Removed Other from gender options and aligned frontend/backend validation.
- Synced medical aid member name from full name.
- Set issuer/institution defaults for staff/student ID capture.
- Added faculty, programme (searchable and faculty-linked), level (1-7), and semester (1-2) selectors.
- Updated national ID validation to allow 6-8 digits in the middle segment.
- Improved date manual entry handling and formatting logic.
- Locked receptionist queue interactions for protected statuses (checked-in/with doctor/completed paths).

Backend and Data Layer

- Added schema ensure logic for reception medical aid fields.
- Persisted added medical aid fields in patient create flows.
- Added/updated backend validation rules for medical aid/provider/plan and identity capture constraints.
- Added validation for faculty/programme linkage and academic range checks.
- Updated demo seed data for new schema and capture fields.

Pharmacy and Other Dashboard Areas

- Added medical aid cover guidance cards to pharmacy dashboard.
- Included additional pending updates across admin/doctor/nurse/pharmacy/users routes and frontend dashboards below.
